Premium Wash Cloth

Premium non-woven wash cloth specifically developed for automatic blanket cleaning systems. Highly absorbent yet incredibly strong for performance and quick clean ups.

Premium wash cloth removes ink, dust and impurities from the blanket in one safe operation while not distorting or tearing under tension.

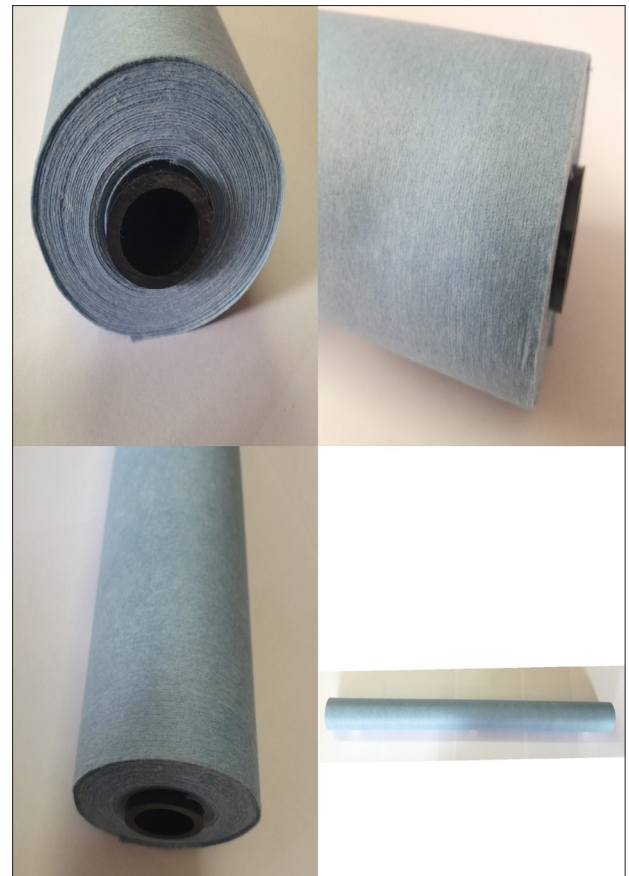

Premium wash cloth provides unbeatable combination of competitive prices and excellent qualities such as:

- high tear resistance
- high absorbency
- virtually lint free
- non scratching
- effective and efficient cleaning

Premium non-woven wash cloth is available in:

- Mini Rolls
- Jumbo Rolls
- Wet Rolls

Further technical data on request.

CPC Consumables

Tesamol Tape

An adhesive foam for placement under the ink duct foil.

Protective Underlay Foil

A two-band bi-adhesive foil for placement under the ink duct foil.

Ink Duct Foils

Wide range of ink duct foils with maximum chemical, thermal and mechanical strength for long life without ink duct contamination.

CPC Servo Motor

Servo motors for controlling ink zones in each printing unit on presses equipped with CPC.

Washup Blades

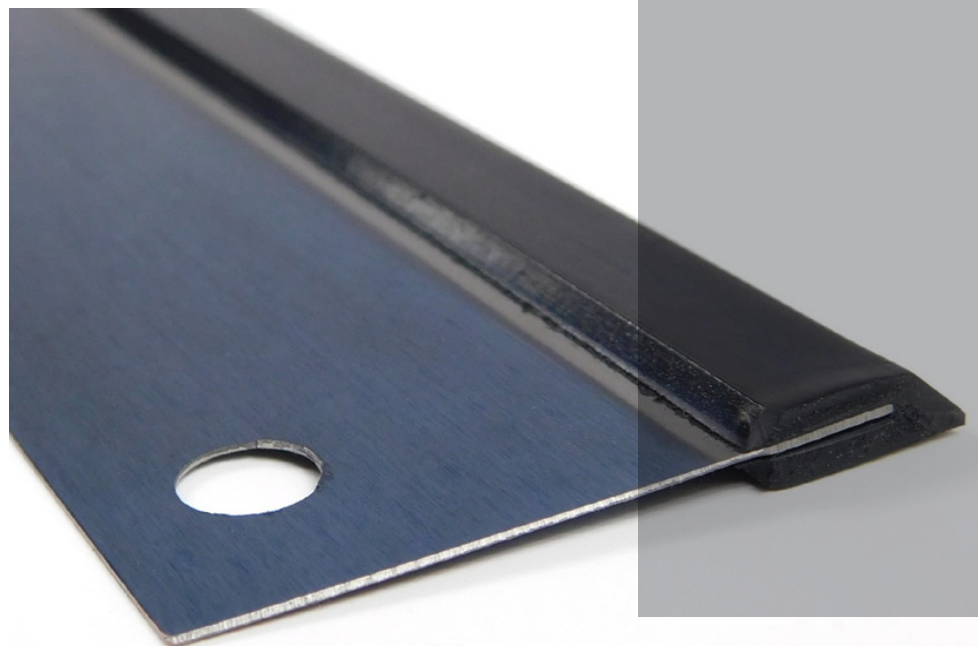

Our wash-up blades are manufactured to fine tolerances for a perfect fit on old and new presses alike. They are resistant to chemical attacks from inks and solvents and are highly efficient and durable. Our blades are available for vast majority of offset sheet-fed, web and continuous form presses in either metal/rubber, plastic and metal/urethane. Each individual blade is presented in a plastic sleeve with the machine reference for easy identity.

Unique brands supplied:

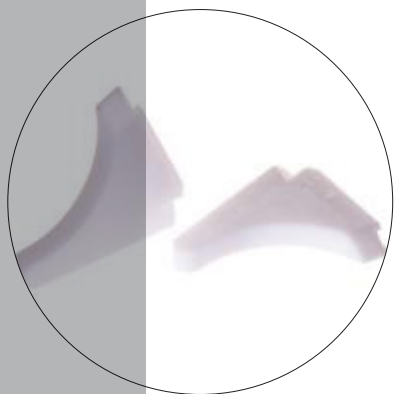

HEIDELBERG

KOMORI

Dampening Seals and Cleaning Felts Ink Duct End Blocks

25
YEARS

Ink Duct End Blocks are made of high end polymer and can endure high cyclic stress loading.

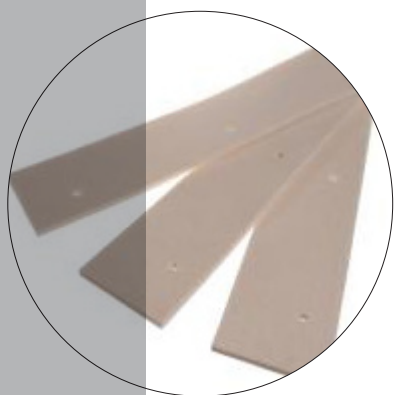

This ensures high strength and water resistance translating into a long life in production.

Our range of Ink Duct End Blocks are sorted for Goss, Heidelberg and KBA.

Printfix KZN also has a range of cleaning felts for both old and new presses alike. Ensuring optimum cleaning and on demand cyclic loading.

Cleaning felt sorted for Heidelberg, Harris, KBA and Komori.

Kompac Dampening Seals for both II and III systems, these seals ensure to prolong roller life.

Anti-Marking Systems

Our Anti-Marking film and paper is coated with a uniform layer of over 2500 microscopic silicon glass beads. The ink repellent glass beads prevent ink smearing on the transfer cylinders and ensures only the smallest possible area is in direct contact with the wet ink during transfer of the printed sheet. Universal application, both the AMP and AMF can be used by all commercial printers on both coated and non-coated paper, from light to heavy stock.

Anti-Marking Paper

This is oil impregnated, dimensionally stable paper, offers the most economical solution to problems for marking.

Anti-Marking Film

Premium quality product with, polyester backing for exceptional durability and favoured by most printers. Two models available for your choice.
Fine and Coarse

Anti-Marking Film Self-adhesive

A polyester backing with extra self adhesive backing for quick and easy installation. Two models available for your choice.
Fine and Coarse

Quick Cleaning:

For perfect running condition occasionally wipe it down with a dampened rag using a mild press wash.

Anti-Marking Jackets
Anti-Marking Paste

Grippers and Gripper Pads

25
YEARS

High quality grippers and gripper pads for all Heidelberg presses. Made from premium materials to ensure high performance, enquire for our full range.

Feeder Belts and Slow Down Belts

25
YEARS

Our Belts are found to handle the most demanding belt applications. We supply all types of belts elastomer, wear resistant polyurethane, woven endless, self tracking, vacuum, covered, sealed, fused and anti-static. Only quality materials used for our feeder belts, we can ensure that your feeder will always keep running.

Stocking belts for:

Heidelberg
Roland

Komori
Ryobi

KBA
Mitsubishi

A range of slow down belts to meet your high expectations. Stockists of Slow down belts for:

Heidelberg
Komori
KBA

Please enquire to see our full range.

Miscellaneous

Festo Valve

CPC Servo Motor

CPC Buttons

Sheet Separators Feeder Brushes

25
YEARS

A Wide range of both Sheet Separators and Feeder Brushes for all common Litho printing presses. Our range of Separators and Brushes mostly caters for Heidelberg presses.

Other Sheet Separators and Brushes include: Komori, KBA and Roland.

We also stock a wide range of Brush wheels for Heidelberg, KBA, Komori and Roland.

Rubber Suckers and Lifting Suckers

Our Rubber Sucker range has developed over the years, we stock a wide range of suckers for a variety of printing and packaging presses. Our Rubber Suckers are produced to cope easily with the demands of high-speed printing and packaging presses. Our suckers are made from natural rubber, synthetic material and silicon. Our sucker range caters for:

Heidelberg, Harris, Komori, Roland, Muller Martini and Stahl.

Plates And Blankets

25
YEARS

FUJIFILM

Making offset printing
more profitable.

FUJIFILM
SUPERIA

Printfix KZN offers premium printing blankets, which are designed for ensuring perfect sharp dot reproduction on all printing presses. Our blankets are suitable for all types of printings inks and paper, compressible layer helps to improve stability and ensure higher longevity.

Straight edge Blankets Barred Blankets Continuous forms

PrintFix KZN and FujiFilm SA are dedicated to providing exceptional Lithography printing plates. Fujifilm has a long history of continuously providing their customers with quality printing solutions and are always looking for new innovative ways of progressing the print industry.

Plate Types:

- Wet Thermal
- Process-Free
- ZD Plate

Finishing

Printfix KZN has a vast major of finishing spare parts and consumables. We provide Stitcher heads as well as stitcher head parts, other parts for stitching and gathering lines. We stock a wide range of Needles, punches, hook needles and other miscellaneous parts. For all your sewing machine parts, please enquire as we have a wide range of parts.

Perforating wheels, Slitters, Stick on perf and Stick on score.

Other Finishing Consumables:

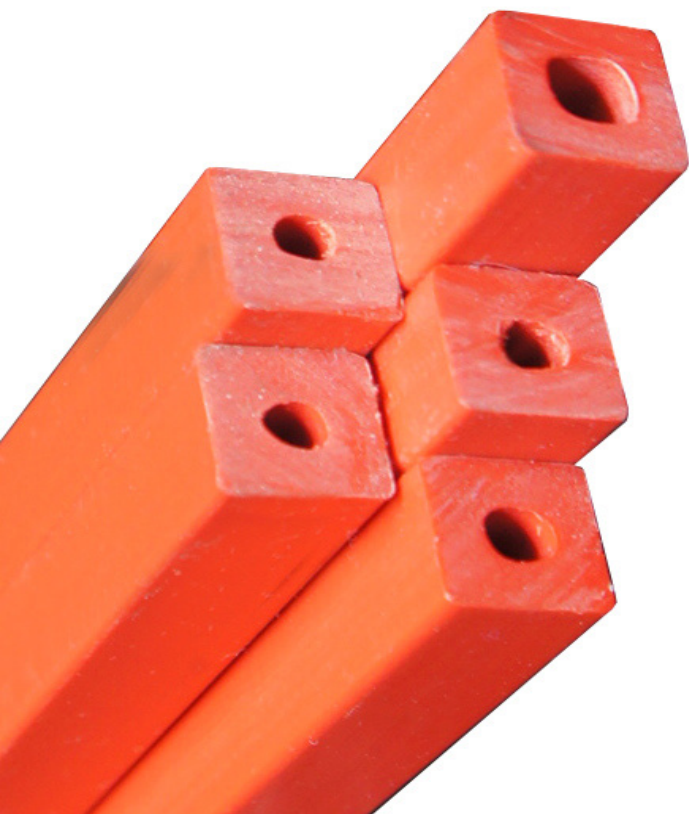

Wiro & Rims

Cylinder Jackets Cutting Sticks

Printfix KZN supplies a variety of cutting sticks and ensuring the finished products meet our customers needs. Our cutting sticks have been made from materials ensuring high performance levels as well as good durability.

Common Jacket Types

All our Cylinder Jackets are made from premium steel and are equipped to handle harsh die cutting conditions.

Models:

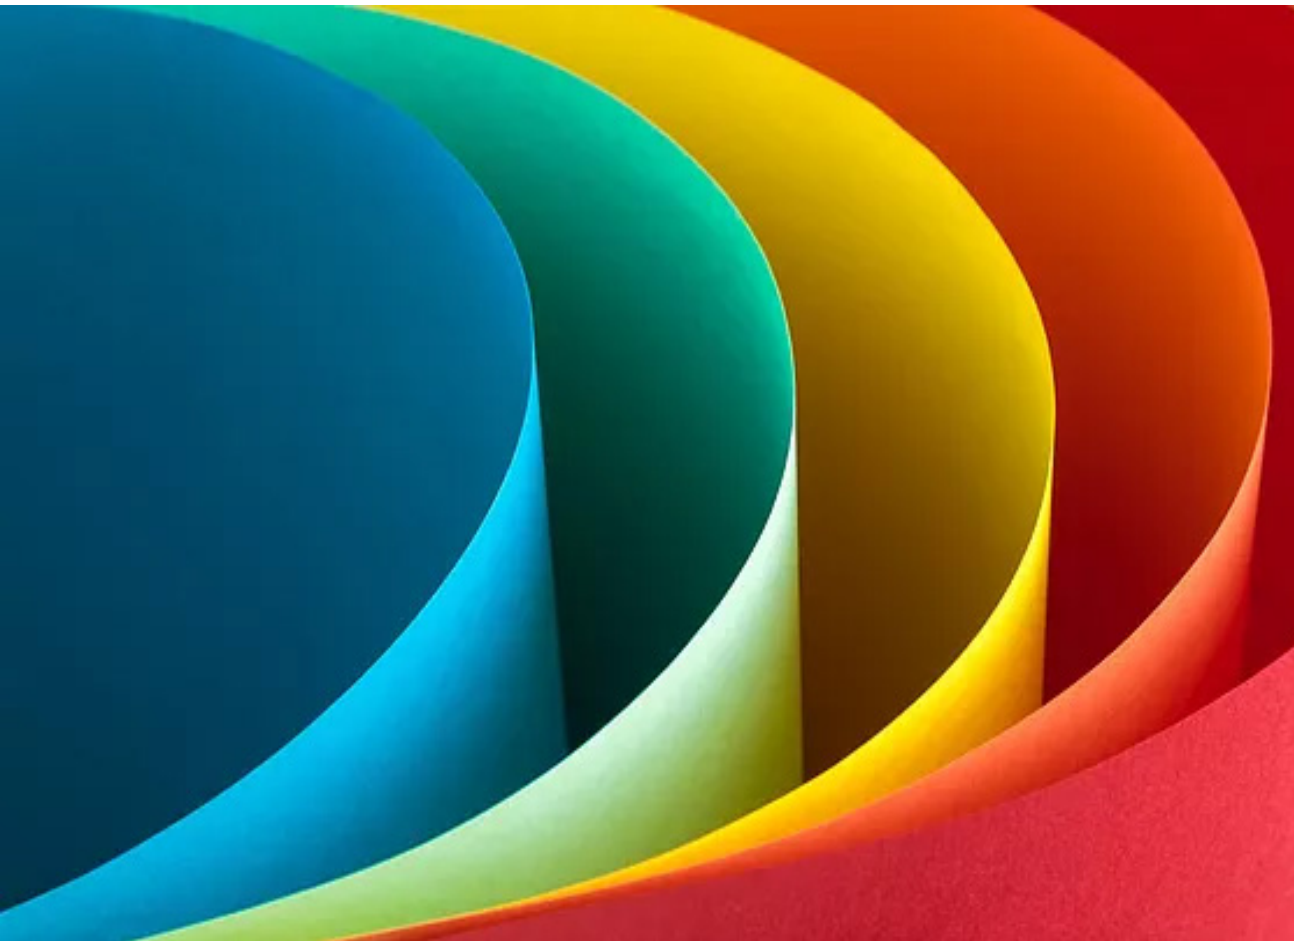

GTO46	GTO52
SM102	KOR
KORD64	KORD62
PLATEN	KS
KSB	KSBA
S	SB-SBG
SBB	SBD

Any other jacket types, please enquire.

Underlay Packing Paper

Top Quality calibrated underlay packing paper for accurate adjustment of plate and blanket packing. Treated against solvent and moisture.
