Die-Board

Rubbers

Durable & Long-Life Rubbers

Stable Nicking Supports high speed production

Ensures Clean Cuts Enhanced ejection performance

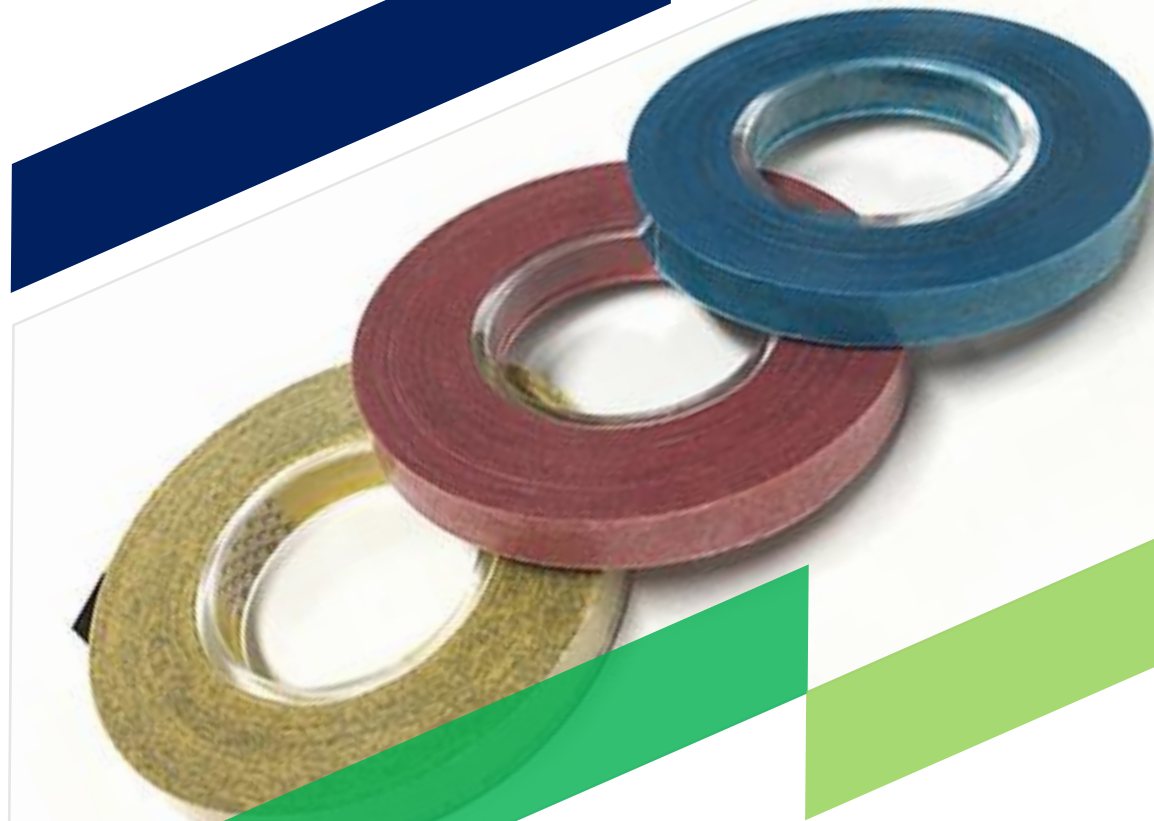

Cork provides excellent grip on sheets further ensuring clean cuts. High speed production suited for both cardboard & corrugated Board.

Variations of Cork

- Neo Cork
- R Cork
- Triangle Cork
- Zero Cork

Make Ready Products

A wide variety of patch up Tapes, precise thickness and stable for overlay coverage.

Selection of tapes range from paper based to film based, each suitable for cardboard & corrugated board.

Metalized tape selection provides economical value with excellent performance.

Patch up Mats are also an ideal choice to reduce make ready time. For further information on patch up products contact our offices for some more assistance.
